This application must be accompanied by floor plans; a plot plan (must specify house location on lot, measurements for building line setback, rear yard depth and side yards and proposed water and sewage location to main line)

If approved, this application must be in compliance to the National Building Code, National Fire Code and Electrical and Plumbing Codes as per the Town of Winterton Policy and Procedures. If a well or septic tank is required, approvals from the Department of Government Services and Lands must be acquired. It is the responsibility of the applicant to ensure that all pertinent approvals are obtained from the appropriate government departments and agencies and the construction is in accordance with these codes, regulations and approvals. The applicant is responsible for supplying their own water and sewer, back up valve on sewer line, and a pressure reducing valve on water line. Council is not responsible for any flooding of basement and property.

The applicant is responsible for supplying their own water and sewer, back up valve on sewer line, and a pressure reducing valve on water line. As per council policy # 1.8.1 the applicant is responsible for all excavation work and plumbing required between the new structure and the nearest main sewer and water lines necessary to connect services to the proposed development. Council is responsible for the connection fittings and manpower to complete the final connection of the services to the mains. All work on main line services must be scheduled through the town office and MUST be overseen by the Superintendent of Works.

Applicant must contact the office for an inspection prior to the pouring of footings for new construction or extensions to confirm that the location is as per application submitted and Municipal Plan. Failure to do so could result in removal of development.

PLEASE NOTE: The Town is not responsible for ensuring ownership of property. The onus of clear title of property lies solely with the applicant.
